

## Donate to Pakistan

Since 14th of June, rain and flooding have affected 30 million people in Pakistan. According to the National Disaster Management Authority, 317'678 persons are still living in relief camps across the country. According to South Asian Index floods have damaged nearly 1 million homes washed away, made 10 million people homeless, 0.8 million live stocks death, more than 40 small dams breached and more than 200 bridges collapsed in Pakistan. As many roads and bridges washed away causing extra problems for the rescuers to reach the flood-affected areas to help the victims.

Moreover, due to flood many water borne diseases spread among the flood affected areas for instance, Dengue fever (due to mosquito bites), diarrhea, typhoid, malaria and skin diseases.
